

CLAIMS:

1. A laminated tube having an outer layer laminated on a substrate layer that makes up the main body of said tube, wherein said outer layer has or
5 consists of a projecting portion disposed in the axial direction.
2. The laminated tube according to Claim 1 wherein said substrate layer is flexible while said outer layer is harder than said substrate layer.
- 10 3. The laminated tube according to Claim 1 or 2 wherein said projecting portion is linear.
4. The laminated tube according to Claim 1, 2, or 3 wherein plural projecting portions are disposed.
- 15 5. The laminated tube according to Claim 1, 2, 3, or 4 wherein a pair of projecting portions is disposed axisymmetrically in the cross-sectional view.
6. The laminated tube according to Claim 4 or 5 wherein said projecting
20 portions have different widths.
7. The laminated tube according to Claim 4 or 5 wherein an even number of projecting portions is disposed at equal intervals.
- 25 8. The laminated tube according to Claim 1, 2, 3, 4, 5, 6, or 7 wherein said outer layer having or consisting of the projecting portions gives a graded effect caused by the change in the thickness of the laminated outer layer.
9. The laminated tube according to Claim 1, 2, 3, 4, 5, 6, 7, or 8 wherein
30 the substrate layer is made of an aluminum laminating material.
10. The laminated tube according to Claim 1, 2, 3, 4, 5, 6, 7, 8, or 9 wherein the main body of said tube and the outer layer have different colors.
- 35 11. The laminated tube according to Claim 1, 2, 4, 5, 6, 7, 8, 9, or 10 wherein said projecting portion or portions are spirally disposed.
12. The laminated tube according to Claim 1, 2, 4, 5, 6, 7, 8, 9, 10, or 11 wherein said projecting portion or portions have a wave form.

13. The laminated tube according to Claim 1, 2, 4, 5, 6, 7, 8, 9, 10, 11, or 12 wherein each projecting portion has a different color.

14. A molded tube product comprising the laminated tube according to
5 Claim 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, or 13 wherein said tube is cut to a given length, flattened and sealed at one end, and is provided with a head portion of a shoulder and a neck at the other end.

15. A molded tube product comprising the laminated tube according to
10 Claim 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, or 13 wherein said tube is cut to a given length, flattened and sealed at both ends
